

Post: Reserve Warden

Grade: 5

Directorate: Operations

Location: WWT Castle Espie Wetland Centre

Reporting to: Reserve Manager

Main function of post: You will assist in the management of the nature reserve at WWT Castle Espie, including the development and management of habitats, reserve infrastructure and species monitoring, in accordance with the site's management plan and through that work engage with the public inspiring new audiences to support WWT Castle Espie.

Supervisory responsibilities: Volunteers and work experience placements

Responsibilities of the post

1. Assist with habitat and species management in line with agreed procedures and guidelines as set out in the site's conservation management plan.
2. Assist the Reserve Manager with the site's conservation management plan software (Conservation Management System (CMSi) and help provide annual reports on reserve management and develop annual work programs.
3. Assist in the engagement strategy by leading guided walks, assisting at events and delivering inspiring engagement activities for our visitors across different media to enhance the profile of WWT Castle Espie.
4. Assist in the effective communication of WWT's conservation messages by providing and updating information on wildlife & conservation highlights via a range of media in accordance with WWT policy
5. Assist in the operation and maintenance of site infrastructure in line with agreed procedures and guidelines including paths, hides, fencing, water level control structures, interpretation and all further infrastructures which may be added to the site.

6. Assist the Reserve Manager in the collection, recording and the dissemination of biological data to relevant authorities. Also, to analyse biological data as detailed in the conservation management plan to help inform future reserve management.
7. Operate machinery with proper regard to safety regulations in accordance with WWT's Health & Safety procedures. Using all tools safely and correctly and to observe and apply Health and Safety regulations at all times, including daily risk assessments and machinery checks.
8. To be responsible for working within the WWT health and safety policy and guidelines ensuring the health, safety and wellbeing of yourself and others is an integral part of how you work.
9. To assist in the management of volunteers, work experience, trainee placements, volunteer parties and other WWT staff and volunteers engaged in monitoring and site management.
10. To assist the Reserve Manager with contract labour, plant and machinery on the reserve and supervise when required.
11. To work alongside volunteers encouraging, developing and supporting them in their work for WWT, ensuring that they have a positive volunteering experience.
12. To be responsible for engaging with the WWT Sustainability Statement, being aware of negative environmental impacts and incorporating sustainable ways of working within your role.

In addition to the duties and responsibilities listed, the post holder is required to perform any other reasonable duties that may be assigned by the supervisor shown above, from time to time.
