

**Post:** Country Coordinator (Cambodia)

**Directorate:** Conservation

**Location:** Cambodia – based in Phnom Penh with extended periods in the field

**Reporting to:** Head of Conservation & Development

**Main function of post:** To support delivery, and facilitate growth, of WWT's integrated conservation and development programme in Cambodia. The role will oversee initiatives to; embed sustainable livelihoods, enhance environmental education and awareness, and improve understanding of ecohydrology and connectivity in the Cambodian Lower Mekong Delta. Much of the work will centre upon, but will not be limited to, WWT's two focal sites in the region, Boeung Prek Lapouv and Anlung Pring Protected Landscapes. A wider remit of the position will be to represent WWT at national and regional levels, ensuring our strategic priorities are promoted and organizational obligations are met.

**Supervisory responsibilities:** Field teams, including Technical Advisors/Officers, researchers, volunteers and students, as well as assisting with the oversight of partner field staff as and when appropriate.

**Hours worked:** 37 ½ hours per week, Full Time

**Working pattern:** Monday-Friday with flexibility required during fieldwork.

---

### Main duties of the post

1. To review and drive forward sustainable livelihood initiatives in and around Boeung Prek Lapouv (BPL) and Anlung Pring (AP) Protected Landscapes. Working alongside relevant specialist partners, the incumbent will ensure that projects, such as environmentally sensitive agriculture, community fisheries and ecotourism, are financially viable and delivering tangible biodiversity and ecosystem service benefits.
2. To support the re-zoning and management planning processes for BPL and AP Protected Landscapes, ensuring priority habitats and community sustainable use rights are acknowledged and integrated.
3. To identify and seize upon opportunities for the WWT Cambodia Programme to influence wise use of wetlands within the Cambodian Lower Mekong Delta (CLMD).

4. To develop and implement engaging environmental education and awareness campaigns alongside local partners.
5. To support research into the ecological and ecosystem service value of the CLMD wetlands and the optimal ecohydrological states and connectivity of key wetland sites in the area.
6. To keep abreast of environmental and socio-economic issues and trends relating to sustainable wetland management in Cambodia and the wider Indo-Burma Region.
7. To support the refinement and redevelopment of WWT Cambodia's organisational policies and positions as required to ensure the organisation not only complies with legal requirements but also goes beyond and demonstrates best practice in key areas.
8. To support operational and financial administrative systems which facilitate the successful delivery and growth of WWT's Cambodia Programme.
9. To represent WWT externally as appropriate, including with partners and other key stakeholders in Cambodia.
10. To contribute to internal and external reporting needs as required.
11. To deliver, or contribute to the delivery of, internal or external training and support sessions as required.
12. To organize or contribute to the organization of seminars, conferences and other events as required.

In addition to the duties and responsibilities listed, the post holder is required to perform any other reasonable duties that may be assigned by the supervisor shown above, as appropriate for the delivery of project or wider objectives.
